DETAILED ACTION

- 1. This action is responsive to communications of application filed 1/09/2002.
- 2. The disposition of the claims is as follows: claims 1-36 are pending in the application. Claims 1, 7, 13, 19, 25 and 31 are independent claims.
- 3. The group and/or Art Unit location of your application has changed. To aid in the correlation of any papers for this application, all further correspondence should be directed to Group Art Unit 2676 (effective 2/04). Please be sure to use the most current art unit number on all correspondence to help us route your case and respond to you in a timely fashion.

Election/Restrictions

- 4. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-6, drawn to interactive data analysis, classified in class 345, subclass 440, 748, 771 and 970.
 - II. Claims 7-12 and 25-30, drawn to data analysis, classified in class 709, subclass706.
 - III. Claims 13-18 and 31-36, drawn to allowing a user to interactively explore multivariate data, classified in class 382, subclass 154, 325.
 - IV. Claims 19-24, drawn to interactive data analysis with overlaying and mapping, classified in class 345, subclass 782, 792 and FOR190.

The inventions are distinct, each from the other because of the following reasons:

Application/Control Number: 10/043,371

Art Unit: 2676

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II - IV, Group II is not required for Groups I, III, or IV, Group III is not required for Groups I, II, or IV, Group IV is not required for Groups I - III, restriction for examination purposes as indicated is proper.

A telephone call was made to Karl Kenna, (Registration Number 45,445) on 1/29/2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
